R. L. POLK & COMPANY'S 1923 BUYERS' GUIDE OF THE CITY OF CHICAGO "The Great Central Market"

THIS section of the directory will be reproduced in a special commemorative edition, "Chicago Today," and given a world wide distribution. Issued in supplementary form, this catalog of the leading business houses and professional interests in Chicago will reach U. S. Embassies, Consulates and Consular Agents in all Cities and Countries of the World, as well as all Commercial Organizations and important Civic Bodies throughout the United States and Canada, Chambers of Commerce, Boards of Trade and similar civic and business organizations.

THE advertisements grouped by Departments and carefully indexed provide a comprehensive guide for ready reference of Buyer or Seller. The particular function of a city directory is to direct. CHICAGO the great enterprising central market has long felt the need of reference information of this kind and the publishers hope this need is herewith supplied.

BOTH BUYERS AND SELLERS WILL FIND THESE PAGES HELPFUL AND INTERESTING

Volume 71 of the Chicago City Directory

The best cars ever  
built by Harry C.  
Stutz are named from  
his initials and are  
built by the  
H. C. S.  
Motor Car Company  
at Indianapolis.

# H.C.S.

Designed and Built by HARRY C. STUTZ

For those who have the kind of a car that runs 12,000 miles and then begins to develop chronic ailments, the new and very powerful H. C. S. opens a new thrill and a new satisfaction in motoring. Surprising economy, rugged durability and a charm and personality quite its own.

ELECTRICAL  
PRODUCTS

See the  
point?

N. B.—If your repairman can't—or won't—supply K-B FLYWHEEL STARTER RINGS come direct to us. We have every size ring, and give one-day service.

That is your guarantee of time-labor-saving—if you use the KIRK-BARBER FLY-WHEEL STARTER RING on your car. There is no other ring on the market with the K-B right and left braced point. This point is RIGHT.

Insist on K-B FLYWHEEL STARTER RINGS—don't let your repair man sell you a substitute; the profit will not be yours. K-B rings are better; they give superior service and stand up under the wear and tear of use two or three times longer than THEIR BEST IMITATORS.

The cost of replacement is not in the ring itself, but in tearing down the car, taking out the flywheel, and "putting things together" again. Use KIRK-BARBER FLY-WHEEL STARTER RINGS and eliminate the subsequent expense of frequent installations.

Look for the name KIRK-BARBER stamped on every ring. There are no other rings "just as good."

## A Complete Banking Service Under One Roof

The Continental and Commercial National Bank has close connections with more than 7,450 banks in the United States and with many of the great banking houses in foreign lands. A comprehensive service is thus offered both at home and abroad.

The Continental and Commercial Trust and Savings Bank has 122,000 savings depositors. Its trust department is an active, well equipped agency for the conduct of all forms of trust business. The bond department specializes in underwriting and distributing entire issues of bonds and notes. It also does a large retail business and its clientele numbers more than 20,000 per-

sons. Investment and trading counsel is freely given.

The Safe Deposit Company has a clientele of more than 22,000 persons, including bankers, brokers, administrators, executors, trustees and private individuals. Its vaults are impregnable. It affords convenient accommodations.

The Continental and Commercial Securities Company underwrites issues of preferred stocks and other securities and distributes them at wholesale to dealers.

The Continental and Commercial Banks, all under one roof, offer a complete banking service for banks, corporations, firms and individuals.

The "CHICAGO JOURNAL OF COMMERCE" says: "There are two principal considerations bearing on  
 the question of soundness of a bank. The question of examination is really secondary. The most im-  
 portant is that of personnel. Who are the officers, who are the directors, and what attention do they  
 give to their bank?"

We point with pride to these, many nationally known, our directors, principal stockholders, and officers.

## Appraisal of Character

The investment business is primarily based on confidence. Confidence in any business is, in a large measure, appraisal of the character of the men conducting that business and interested in its ownership and management.

The executive personnel of Federal Securities Corporation is as follows:

CHARLES W. FOLDS.....Chairman of Board of Directors

PHILIP R. CLARK.....President	PAUL BUHLIG.....Sales Department
ALVIN F. KRAMER.....Vice-President	CHARLES H. IRELAND.....Municipal Dept.
HATHAWAY WATSON.....Treasurer	MRS. IRVING L. STERN.....Woman's Dept.
PAUL WILDER.....Secretary	CARROLL E. GRAY, Jr. ....Corporation Dept.

In addition, the following are associated with Federal Securities Corporation either as stockholders or directors:

THOMAS E. WILSON	SILAS H. STRAWN	WALTER A. STRONG	ROBERT J. THORNE
EDWARD HINES	BURTON F. PECK	JAMES A. PATTEN	ALBERT PICK
B. F. APFLECK	WILLIAM E. CLOW	C. M. MACFARLANE	Mrs. JACOB BAUR
JOHN E. WILDER	ROBERT McDUGAL	BYRON V. KANALEY	ALEXANDER H. REVELL
	WILLIAM WRIGLEY, JR.		

**FEDERAL SECURITIES CORPORATION**  
38 SOUTH DEARBORN STREET, CHICAGO.

TELEPHONE RANDOLPH 7500

*This company is engaged in the general business of underwriting and distributing such securities as are considered suitable for discriminate investment. The patronage of banks, institutions, trustees and individual investors is respectfully solicited.*

## A Connection of Real Value to the Investor

**M**EN who have learned to make sure-footed progress in their financial affairs know that the services available to them through established relations with a reliable investment house are indispensable. A connection with Halsey, Stuart & Co. adds to the investor's own knowledge and experience these distinct advantages—

- a—The complete facilities of an old, established house in assisting you to gauge security values.
- b—A wide selection in various types of conservative bonds.
- c—Active co-operation in helping you steadily increase your accumulation of bonds, through a convenient and interesting plan of *systematic* investment.
- d—A sincere and continuing interest in your bond investments—expert advice concerning them at all times.
- e—Assurance of our endeavor to help you conform your bond holdings exactly to your requirements.
- f—Facilities for collection of coupons, assistance with income tax returns, efficient service on purchase, sale or exchange of investments, extensive statistical information, etc.
- g—A painstaking service regardless of the amount of your bond purchases—by mail, through our representatives or over the counter.

*Detailed description of the various services you may obtain from Halsey, Stuart & Co., together with information of general interest and value to investors, is contained in our booklet, "Choosing Your Investment House." Let us send you a copy without obligation.*

## A Record of Progress

FROM 1865 TO 1923

Entering the investment business at the close of the Civil War, the founders of Peabody, Houghteling & Co. adopted the principle which ever since has guided our service to our clients: the selection of securities which would stand the test of time.

Our securities and our business, as a result of this policy, have stood the test of fifty-seven years. We are today better equipped than ever before to serve our clients and our community, because those fifty-seven years have brought to us an experience obtainable in no other way.

Age alone is not a sufficient recommendation for a business; but age coupled with steady growth is a sure indication of increasing public confidence, the asset most sought for and most valued by every establishment which takes pride in a long and honorable record.

## FIRST MORTGAGE BONDS

### Loans on Real Estate

IF YOU WANT BONDS that time and experience have proven completely safe and which at the same time offer you a very attractive yield, our offerings will repay investigation. These bonds are secured by first mortgages on Chicago land and buildings of the very highest grade and will give you satisfaction.

On the other hand, if you are seeking loans on such property, either completed or under construction, our Loan Department, by reason of our large clientele of purchasers of bonds and mortgages, including several insurance companies, offers you exceptional service.

## BIOFOOD

YOUR HEALTH IMPROVED  
or  
YOUR MONEY REFUNDED

Your body assimilates whatever it  
needs from food, if the food has it to  
give. Because most foods are robbed of  
essential chemicals, therefore it is neces-  
sary for you to take BioFood until your  
health is restored.

BIOFOOD CORPORATION  
4450 Ravenswood Ave.  
Phone Ravenswood 2670

BioFood overcomes the deficiency  
due to devitalized food. It contains all  
the elements which Nature needs to build  
healthy body tissue. These elements are  
made assimilable. You take them with  
your ordinary food.

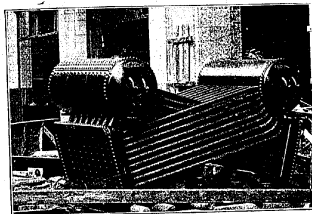

FIG. 8 WATER CIRCULATION

## BURTON DUPLEX WATER TUBE BOILERS

COPYRIGHT AND PATENT PENDING

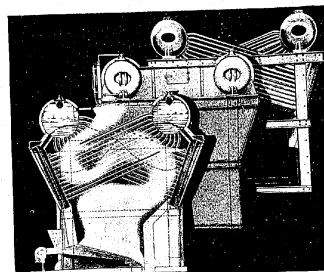

DUPLEX boilers have large water capacity with abundant steam liberating surface. Unrestricted circulation enables boiler to meet sudden steam demands. Develops high overload capacity, with dry-steam and constant water level. Tubes are curved on one end only, all same radius, can be replaced by cutting any longer tube and are installed through the combustion chamber. This boiler requires but little headroom, is very economical to operate and easy to keep clean.

Burton Duplex Boilers can be shipped already assembled when conditions make it advisable, or drums, headers and tubes can be shipped all ready to place in the steel frame. The steel casing is then attached after the brick and asbestos lining is built in.

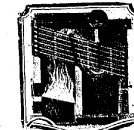

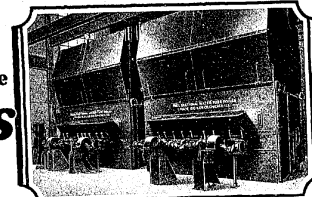

## JOHN MOHR &amp; SONS

## Page Water Tube Boilers

The Page Cross-Drum Boiler

## How the Page Differs

The same cross-cross tube construction which makes the Page Cross-Tube the world's quickest steamer.

1. High capacity and high efficiency, due to alternate crossing of tubes.
2. Air-tight steel casing, which prevents air leakage and eliminates expensive brick settings.
3. No baffles in ordinary sense; three pass effect obtained with its one and only pass.
4. The largest Page Boiler can be delivered in sections through a 4 by 8 foot opening; boilers under 200 h.p. can be delivered through a 4 by 4 ft. opening.
5. Delivered in sections; low erection costs; can be assembled by unskilled labor, under supervision.
6. Built in soot-blower is standard equipment; less foundation required because of light weight; has feed water regulator.

The big catalog is free

## The World's Quickest Steamer

THE basic idea of the design of the Page Cross-Tube Boiler, shown above, is to place the greatest amount of heating surface in the smallest possible space. This is effectively accomplished by cross-crossing the tubes and shortening them.

This makes the Page practically two boilers in one or in other words, there is twice as much heating surface exposed to the heat of the furnace. Three-inch tubes are used instead of the usual four-inch tubes. These tubes have greater heating surface per volume of contents.

The greatly increased heating surface explains the unanimous statement of Page users that the Page is "the world's quickest steaming boiler."

The cross-drum boiler stands out the Page series of generators. Like other Page boilers, it is of special construction and can therefore be installed in any roomed capacity, from the smallest to the largest, by merely varying the number of sections. The circulation is so arranged that water is taken from the bottom of the drum, heating a deal space in the drum, and returning within the drum, insuring the delivery of dry steam at all times. The top ends of the tubes are supported by a heavy steel T-piece which can be removed if desired. Headers are and special joints are eliminated. Boilers are shipped knocked down. Ask for new literature.

## Boiler Repairs

Our specialty service in making boiler repairs on any type, make or size of boiler, calls attention to our 1928. We maintain a full stock of component boiler makers for the just and convenient for all parts of Chicago and its suburbs. Or write—

**Hydrite** Anti-Freezing Compound.  
**Hydrite** Liquid Dampproofing  
**Hydrite** Liquid Oilproofing.

A Service and Contracting Department is maintained, composed of practical engineers in all waterproofing problems. Contracts are executed in all parts of the United States.

**WATERPROOFING GROUTING UNDER PRESSURE**

For basements, tunnels, pits, emplacements, etc., where excessive water pressure encountered in present structures.

We have specialized in this class of work for the past ten years. This process is employed exclusively by us and from an engineering standpoint is the only permanent one. The surfaces are made lastingly water-tight and moisture-proof through the forcing of water-tight cement grout by means of bleeders to the exterior or pressure side of the wall, using suitable machinery to accomplish this result. Data is solicited on the most difficult problems.

**Co-operative Service**  
 Circulars descriptive of the products above mentioned with details of their application furnished upon request.

## BUILDERS' SPECIALTIES

**Casement Window Adjusters**SECURITY CASEMENT ADJUSTER  
MALLEABLE IRONWILKINS CASEMENT ADJUSTER  
MANGANESE BRONZE

THE WILKINS CASEMENT ADJUSTER is a simple, practical, durable adjuster to operate casement windows swinging out, with the screens on the inside. It is easily applied, made to fit any detail and a size for any window. It is made entirely of manganese bronze with case-hardened nickel steel for the locking mechanism and is finished to match other hardware as desired. It is practically noiseless, is insect proof and easily operated without opening or in any way disturbing the screen. It locks positively and automatically.

The SECURITY CASEMENT ADJUSTER is similar to the WILKINS CASEMENT ADJUSTER, operating on the same principle, but is made only of malleable iron and pressed steel. It is less expensive and intended for use where the higher grade bronze metal device is not desired. Casement Windows equipped with these adjusters and screens on the inside are entirely satisfactory, while the screens last as long as the building.

MANUFACTURERS CHECK WRITERS  
1423-1427 Carroll Avenue, Chicago, Illinois

The STROMBERG is the  
Speediest Machine on  
The Market

1—Imprinting Easy: No excessive pressure with the hand to perforate paper. Wave action matrix eliminates this and takes care of perforating without force. A simple downward stroke of the lever all that is necessary.  
2—No Cleaning: Push ink roller cleans type as it ink.  
3—Standard Flexible Keyboard: Easy action. Like popular adding machines. Errors corrected without resetting entire amount.

EXCLUSIVE FEATURES  
4—Value Limiting Device: An added safeguard. So arranged as to allow no space for inserting additional numerals at the left.  
5—Clears Automatically: One stroke of the lever places the check in printing position, makes the impression and clears the machine for the next check.  
6—Printing Line Visible: Until complete impression is made.

The kind that is fair and square in its promises; unusual in its thorough, conscientious service; painstaking, individual and different; "preferred" by all who have tried others without success. It gets results. Hundreds of patients are enthusiastic about it. Adjustments don't hurt—no X-ray expenses—I know Chiropactic thoroughly. Other methods used when indicated—no one method is a "cure-all." The real work done and the clean, honest, efficient methods used, bring health and happiness. Investigation will convince you.

# Know Your Coal Dealer

The Chicago Coal Merchants Association, organized more than twenty years ago, is a large group of Retail Coal Dealers, associated to maintain definite business Principles in the retail coal business.

These Principles are Truth, Honesty, and Fair Dealing—watchwords of real service.

The Chicago Coal Merchants Association is committed to aid the authorities in preventing all dishonest and fraudulent practices in the sale and delivery of fuel; to aid in the enforcement of laws and ordinances covering the production, shipping and distribution of coal, and to advocate and encourage such legislation as will be of benefit to the general public.

*The Chicago Coal Merchants Association never has had, has not now and never can have anything to do with the fixing and regulating of coal prices.*

Any Coal Merchant in Chicago and suburbs whose standard of business ethics is in keeping with the Association's is eligible to apply for membership in the Association. In like manner there is nothing to prevent a member from voluntarily withdrawing from the Association. And if any member fails to live up to the Rules and Regulations of the Association, he is subject to disciplinary action which might result in expulsion.

*Is your Dealer a member? You will want to know. Just look for the emblem, or call the Association office—HARrison 8707.*

## Chicago Coal Merchants Association

# For Coal Security

*Look for This  
Emblem*

**It Guarantees Fair Dealing  
When Buying Your Coal**

*It serves to—*

—identify to you the Members of the Chicago Coal Merchants Association.

*It appears on—*

—trucks and wagons; on delivery tickets and stationery; on coal pockets, on fences and on office windows.

*It means that—*

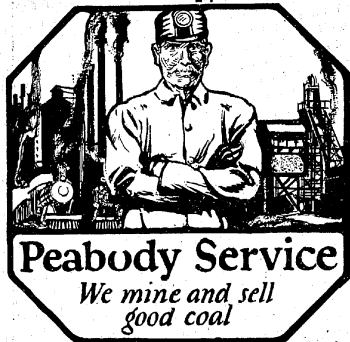

—the Association guarantees 2,000 pounds for every ton.  
—the Association guarantees the coal to be of the kind specified on the delivery ticket.

*Is your Dealer a member? You will want to know. Just look for the emblem, or call the Association office—HARrison 8707.*

## A Dependable Source of Supply

The mining and shipping of coal is full of uncertainties. In no other business are there so many factors utterly beyond control of the producer. Accidents within the mine which it is impossible to foresee or prevent—lack of railroad cars—and failure of labor supply through strikes and other causes, frequently result in stoppage of production.

It is therefore impossible for any coal mining company to maintain 100% service under all conditions. But it is obvious that a producing company with a large number of mines and many railroad connections will often be able to replace tonnage lost at one mine or several mines because of accidents, local labor trouble or failure of transportation, and that such a company will be the last to feel impairment of service due to uncontrollable interruptions.

Peabody Coal Company operates forty-four bituminous mines, served by twenty railroads, with annual capacity of twenty-three million tons. These resources explain the high character of Peabody service.

EXPERT SECRET SERVICE : INDUSTRIAL EFFICIENCY : CIVIL AND COMMERCIAL INVESTIGATIONS

**WE** DESIRE clients who select and depend upon service of the kind we render in the same way they choose those who are to give them legal and medical advice of the highest type. Our business is conducted upon such a code of ethics. This institution has been in successful existence for sixty years. We appreciate and safeguard the confidence reposed in us.

We specialize in civil, commercial, industrial and criminal investigations. Our staff is composed of none but the most experienced, best qualified, most responsible men—each especially selected for his own work.

Our Industrial and Protective Department is organized for prompt and efficient service to our clients in times of labor difficulties—in fact, it often is able to prevent their occurrence.

All correspondence and conferences are strictly confidential. We are glad at any time to provide any responsible executive with full details of our service.

**IT PAYS TO KEEP POSTED.** The cost of keeping posted is most reasonable when you intrust it to the Mooney-Boland-Sutherland Secret Service. It is one of the best investments you can make.

**BENNETT'S DETECTIVE AGENCY**

A HIGH-CLASS DETECTIVE AGENCY THAT IS OWNED AND  
MANAGED BY CHICAGO MEN OF UNQUESTIONABLE CHARACTER

Every employe in this organization is trustworthy and thoroughly trained in Secret Service work and when necessary they can testify in any Court without fear of being embarrassed by the opposing Counsel.

Shadowing is done by experts who use our own cars when necessary.

Investigations are conducted quietly and without publicity.

Dictographs that actually gather conversations are secretly installed anywhere by our own mechanics.

A thorough knowledge of law, evidence and trial procedure enables us to render an intelligent and valuable service to lawyers, corporations and individuals.

We have a flat rate to cover practically every kind of a case, thereby eliminating expense accounts which are so unsatisfactory to many clients.

**This is a Detective Agency in All that the Name Implies**

**WE DO NOT HANDLE LABOR MATTERS OR FURNISH WATCHMEN. CONSULTATION AND ADVICE FREE AND ABSOLUTE SECRECY MAINTAINED WHETHER WE ARE RETAINED OR NOT. GILT EDGE REFERENCES UPON REQUEST.**

**WE ARE BONDED BY THE UNITED STATES FIDELITY AND GUARANTY CO. AND LICENSED BY THE CITY OF CHICAGO.**

## PERSONAL DETECTIVE SERVICE

Not an agency. No mechanical, stereotyped routine, but individualized, practical service that brings results  
I place at your disposal the ability, resourcefulness and discretion developed through twenty years of unusual detective  
experience, including ten years abroad for the United States government

Every case, large or small, civic, criminal or private, receives individual attention and strictest confidence

Right goods at right prices  
continuously since Year 1885

Branches: Chicago New York Philadelphia Washington  
New Orleans Pittsburgh Factory: Chicago, Illinois  
San Francisco

## DIETZGEN Drawing Instruments

In addition to special features which are an aid to accurate and fast work, the superiority of DIETZGEN Drawing Instruments is due to the metals used, their quality, method of treatment, and skilled workmanship.

They have that "nicety of balance" and "ease in handling" that insures better work. Made for every use. Sold at reasonable prices, too!

Our catalog fully explains the respective merits of our different grades.

Perhaps you have a copy;  
if not, write for one today.

## HOW MANY CLOCK TICKS ARE YOURS?

Time is the most expensive commodity in the world today. As a means of conserving the hours, packing the utmost into speeding seconds, the Mimeograph is probably unmatched in all mechanical invention. Five thousand well printed duplicates of a letter, or other type-written sheet, it delivers hourly—forty and more thousand a day. No slow type to set. The stencil, clicked off on the typewriter, is immediately ready to print—the least expensive and quickest form of printing. Good workmanship depends upon care rather than skill. The work may be done privately and under intimate supervision. Now saving unnumbered thousands of dollars for industrial and educational institutions throughout the world. Let us show you how it will save both expense and time for you. Send for booklet today.
