Why Employers call for Columbia graduates

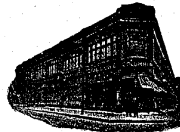

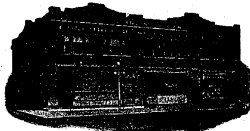

Mr. Wright of Kellogg Switchboard Co., and Mr. Hill of A. G. Morse Co., call Columbia regularly for office help—many other employers depend upon us too.

Why? In Columbia there are two owners (Mr. Ford and Mr. Thompson) who assist 19 experienced teachers in giving individual attention to students; fifty thousand dollars worth of equipment is used; very complete courses are taught in:

Secretarial Work	Bookkeeping
Stenography	Accounting
Comptometer	Bookkeeping Machine

Many Columbia students have three or four brothers or sisters who are Columbia graduates!

SHORTHAND HEADQUARTERS

Rightly is the Gregg School called "Shorthand Headquarters," for it is here that Gregg Shorthand was developed—the one system that is famed everywhere as quickest and easiest to learn, to write and to read.

About 90% of the public schools that teach shorthand in this country have adopted the Gregg System.

The World's Championship was won in 1921 by a young Gregg writer and the World's Amateur Championship was won by another Gregg writer in 1922.

Stenographers with Gregg training are always in demand. Employers realize that a course in this school

gives training that equals experience and develops the ability to think and act efficiently.

At Gregg School the objective is the attainment of efficiency. Therefore, each student progresses according to individual ability. You can enroll any week of the year in either the day or the evening sessions.

Get your training at "Shorthand Headquarters"—the Gregg School. Bookkeeping, accounting and other subjects are also taught.

Visit our pleasant classrooms and in that way you can gain a better idea of the many exclusive advantages enjoyed by our students.

No. 52

This is a brother of No. 55 described opposite, and in all respects identical except in size.

Its splendid performance has made it a favorite with millions of users the world over.

It is as dependable as the Sun and can be relied upon to do the work intended of it day in and day out, whenever and wherever called upon.

Doctors, lawyers, stenographers, bookkeepers and students of all ages—if you would really know the joy of a perfect pen, go to your dealer today and select a No. 52 Waterman's Ideal with a point that exactly fits your particular style of penmanship.

—the man, woman or child who wishes to purchase the best fountain pen made will buy

Waterman's Ideal Fountain Pen

"The Daddy of Them All"

Size for size and price for price, there has never been one as good and in all human probability there never will be.

38 years of reputation back of it and a third generation in training to carry on.

The Things That Make a Fountain Pen Best

1st, *Scientific Construction*—the thing that makes it respond instantly—unfailingly.

2nd, *Quality of Materials*—that make for efficiency, durability and beauty.

3rd, *Reputation and Responsibility*—the product of a house that has more to lose than it has to gain in exaggerated claims.

Selection and Service at Best Dealers the World Over

L. E. Waterman Company

129 South State Street Chicago, Ill.

No. 55

is especially designed to meet the exacting demands of busy executives.

The exclusive Waterman spoon feed assures its instant action the moment the point touches the paper and permits continuous writing without skip, dip or blot.

Its perfect balance and supersmooth iridium tipped hand tempered gold point turn the irksomeness of ordinary pen writing into an unalloyed joy, endearing it to its owner as a priceless possession.

It is Self-Filling—the lever action completes the operation in less than 5 seconds from any available ink supply—extra large capacity.

Its durability is such that it may be handed down from father to son.

Hess Welded Steel Furnace

A Combination of Good Features Which
Cannot Be Found in Any
Other Furnace

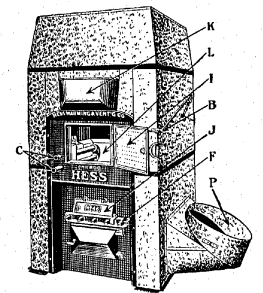

Read the Good Points

Every Seam Welded and Riveted, and Guaranteed Never to Leak as
Long as the Furnace Stands—No Gas, No Dirt—Clean Heat
Is the Exclusive Product of Hess Furnaces

- A. The large square firebox close up to the front. No tunnel to push coal through. Only 30 inches from floor to fire door.
- B. Automatic direct draft attachment to fire door; opens direct draft D and closes check E when fire door opens. Prevents smoke and gas escaping into cellar while firing.
- C. Water coil (optional) for kitchen tank.
- D. Direct draft at most effective position.
- E. Check draft operated by chain from upper floors. Closes automatically while firing furnace.
- F. Best type of separate Rocking Grate Bars clean the fire perfectly without waste of fuel.
- G. Smoke outlet at bottom of large settling chamber. The heat rises and smoke settles and escapes without loss of heat—not possible when outlet is above fire level, nor with any system of "return flues."

- H. Flat bottom back of ashpit. The only place in the furnace where ashes and soot can accumulate—easily cleaned through opening at rear. No flues in the Hess Furnace to clog with soot.
- I. Perforated fire door—sprays fresh air over the fire—the simplest and best device for burning the gas and smoke of cheap fuels.
- J. Lower draft door: operated by chain from upper floor.
- K. Evaporating pan—situated where the water heats and vaporizes rapidly. Any other kind, when the water remains cool, is useless.
- L. Removable Fire Brick slabs—not necessary to dismantle the Hess to replace fire box. The cost is only a fraction of that of cast iron pots.
- M. Spacious ashpit—square back. Large capacity and easily cleaned.
- N. Inner lining of galvanized casing—with cool air space between. No undue loss of heat in cellar.

- O. Tee collar for smoke pipe—can be turned at any angle, to avoid crooked smokepipe.
- P. Large cold air supply boot. On larger sizes two airducts are used, one on each side.
- Q. Six inch space under ashpit—permitting air supply on one side to pass freely under, to opposite side. Not found in other types of heaters.

HESS FURNACES ARE MADE IN CHICAGO
INSTALLED AND GUARANTEED BY THE MAKERS

Call, telephone or write for illustrated descriptive catalogue. Ask for an estimator to examine your house and to tell you what a Hess Furnace will cost—all set up ready for a fire. Six sizes. Pipe or Pipeless.

HIDDEN COSTS

Gas users tie up no capital (creating interest charges) in fuel stocks. They need no storage space. They pay for no ash or waste removal.

Gas users pay no freight, demurrage, switching or unloading charges. They pay no insurance on fuel stocks.

Figure in the overhead and incidental costs of other fuels and you will know

if it's done with Heat

You Can do it Better with Gas

Our engineers will help you solve your factory fuel problem without charge.

Write for the facts, or better still, call Wabash 6000.

AUTOMOBILE AND TRACTOR LUBRICANTS

These lubricants are compounded from the highest grade of Flake Graphite (mined and prepared by ourselves) for the following uses:

No. 22 "Superflake" Graphite Gear Oil: A gear lubricant of this consistency, particularly adapted for use in worm drives, and in transmissions and differential cases where oil lubrication is intended.

No. 27 "Superflake" Graphite Transmission and Differential Grease: This is a non-fluid grease designed and recommended for use in all standard transmissions and differentials, except those where oil lubrication is essential. This grease is guaranteed not to channel.

No. 32 "Superflake" Graphite Non-leak Transmission and Differential Grease: A fluid grease prepared for those who prefer this type of lubrication. No. 32 gives excellent satisfaction in transmissions and differentials having leaky housings, as it minimizes leakage, and being a fluid, of course cannot channel. This grease is a superior lubricant for Ford and differentials.

No. 3 "Superflake" Graphite Cup Grease: Unexcelled for general use in grease cups, wheel spindles, etc.

No. 5 "Superflake" Graphite Cup Grease: Similar to No. 3 except that it is of a heavier consistency.

GRATE BARS

SHEAR-KLEAN GRATES SAVE COAL

By shearing the ash and grinding up the clinker, thus leaving fire open to the air and UTILIZING ALL THE HEAT UNITS.

Inferior grates make smudgy fires and gases distilled from coal pass out of stack uncombusted for lack of air, causing big waste of heat units.

Shear-Klean Grates save these heat units and thus WORK LIKE A SAVINGS BANK UNDER A BOILER.

Only grate on market with sidewise shearing action. Installed on short notice; guaranteed satisfactory.

National Electric Humidifier

FOR CIGAR CASES AND VAULTS

A scientific and necessary device for cigar cases and vaults to insure proper preservation of cigars. Operates automatically, continually forcing fresh, cleansed, moistened air to every part of the case. Keeps cigars always in perfect smoking condition, preserving both flavor and aroma just as they came from the manufacturer. Flashes a rose colored light intermittently, attracting both smoker and passerby. Beautiful in design and ornately filigreed. Foolproof, dependable and durable. Positively sanitary. A business retainer and sales producer, paying larger proportionate dividends than any investment a merchant can make for his store.

We also make and sell humidifiers and air purifiers for Hospitals, Homes, Hotels, Offices, etc.

Could Your Widow Pay Your Debts?

You men who have mortgaged — you men who have borrowed — may have signed away your family's "right to be happy." Legal obligations descend, you know. There's that little clause about "heirs and assigns" that isn't to be forgotten for an instant.

If you've had to mortgage your home or put up your "collateral," your estate isn't apt to come through probate in very good shape—there may be something left and there may be less than nothing. It's all very probable, you know—the very existence of the mortgage or the note indicates the possibility. Your family may pull through all right—it's possible enough, but how probable is it?

And yet you can guarantee their prosperity — certify their happiness. Insure! Now! Don't wait! Protect your wife—make it possible for her to "raise that mortgage." You'll leave a better name if you do—there'll be reason to respect you instead of grounds to reproach you.

If you have a mortgage on your home you should investigate our Double X Mortgage Insurance Policy, especially designed and exclusively offered by the Illinois Life Insurance Company to fit the particular and peculiar needs of the man who has borrowed. Maximum protection at minimum cost.

LONDON GUARANTEE & ACCIDENT CO., LTD. OF LONDON, ENGLAND

HEAD OFFICE: Chicago

F. W. LAWSON, General Manager

Employers, landlords, automobile owners, everyone, requiring insurance should be even more careful in selecting their insurance company than they would be in selecting their bank. In the case of the bank, the depositor stands to lose only the amount of money on deposit, but in the case of the insurance company, the insured might lose not only the amount of his premiums, but many thousands of dollars in addition should a loss occur and the insurance company be unable to pay.

The value of a dollar is no longer what it was some years ago and heavy verdicts are now the rule. All those desiring insurance should satisfy themselves of the insurance carrier's reputation, financial responsibility, the character of the service, the clearness and fairness of its policies and the way in which it meets its obligations.

The large resources, the facilities and the well-known practices of the LONDON give positive assurance to prospective policy-holders that they will always have satisfactory service.

A DEFERRED DIVIDEND SETTLEMENT

Bankers Life Insurance Co.
Lincoln, Neb.
Gentlemen:
I am proud to receive the surplus of \$1292.08 and a paid up policy for life for \$5000.00 on my twenty year policy with you which has just matured. Your local agent, William Beck, has just made the settlement which is very satisfactory in every way. I understand that I am to receive an annual dividend on this paid up policy as long as I live and that at the present earning-rate the first dividend will be about \$24.00.

I find that if I had taken the entire cash value on this twenty year policy I would have received all the premiums I paid you and in addition over \$700.00 clear profit, besides having had the \$5000.00 protection for twenty years but I would prefer to keep the policy in force.

Thanking you for the many helps you have given me since I first took out this insurance, I remain
Very truly yours,
WILLIAM WILSON.

Taken out at age 34.

Half a Century of Service

Viewed in its proper light, life insurance is the surest way to create an adequate estate, instantly available when needed most.

To plan your estate properly, a careful study of your individual problems and an intimate knowledge of all insurance policies are essential in order to select the policies best suited for your particular needs.

You are offered, by H. S. Vail & Sons, a permanent, personal and disinterested service (comparable to an attorney's in legal matters) as they represent not one but all the leading insurance companies.

Such a service is obviously impossible for any insurance company to give you; yet it will cost nothing, because it represents the Vail idea of selling, not insurance, but the benefits of insurance when properly applied to your specific needs.

86 Years of Confidence

Peacocks was established in 1837 when Chicago was struggling towards the dignity of a town. Elijah Peacock, who created and owned the business, built up a thriving trade which in his declining years, he turned over to his son.

It was his earnest desire that the enterprise should never pass into alien hands—that the name of Peacock over the door should always represent actual Peacock ownership, and preserve the principles and reputation he had established.

His wish has been realized. Through all these years, the business has been owned by Peacocks. Today it is owned and operated exclusively by the lineal descendants of Elijah Peacock who know, as he knew, that public confidence is priceless.

Unbroken confidence for almost a century is a remarkable asset. It is difficult to measure our appreciation of the fact. And that it means a great deal to you, is obvious.

Save More with Visible Records in Loose-Leaf Form

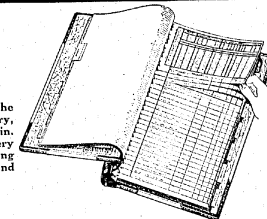

Here's a record system that combines the advantages of both visible card systems and the compact loose-leaf book. It keeps records visible and instantly accessible for reference, entry, change, or expansion. Takes up minimum space, economical to install, operate and maintain. The only system that automatically checks omissions and errors in filing. Adapted to every record need. Size of book to meet your requirements. There is a form to fit your needs among those carried in stock—or we'll make it. Used by some of the largest firms in the U. S. Find out the saving it can effect on your record costs.
