The Easiest and Quickest way  
to find out is to consult the  
Classified Section of this Di-

It's a Buyers' Guide par Excellence

Abolishing restrictions on building material is a more important factor in lowering building costs than the reduction in the scale of wages

THE ANDERSON & LIND MANUFACTURING CO. were the pioneers in fighting the vicious agreements between labor leaders, contractors and material dealers, which once placed restrictions on the use of nonunion materials, and have in the past 10 years obtained court injunctions that restrain interference with the installation of their millwork.

THE LANDIS UNIFORM WORKING AGREEMENT provides that there shall be no restrictions on the use of any manufactured materials, except prison made. The Citizens' Committee was organized to enforce the provisions of this agreement and have eliminated large items of expense in connection with building construction.

The public can assist in this fight by refusing to patronize those firms who are still endeavoring to maintain restrictions on the use of building material by disseminating propaganda to the effect that materials must bear certain labels or they will not be installed.

## What Do You Want to Sell ...in Chicago?

To Chicago---with its dominant three millions ---come the national advertisers seeking a foothold in the great Central West.

Here the HERALD AND EXAMINER---a mighty morning newspaper---is preferred by One-Half the entire newspaper reading public---an audience that has demonstrated its responsiveness to all good advertising.

And on the HERALD AND EXAMINER the advertiser will come in contact with the greatest Merchandising Department in the West---a department that can be best judged by its own brilliant performance.

It consists of a staff of go-getters who have served in most of the successful national campaigns and who will secure Chicago distribution for your product before a line of advertising is published.

# The Chicago Daily Journal

ESTABLISHED 1844

Antedating the board of trade, the stock exchange, the stock yards, all of the city's banks, and most of the railroads and other enduring institutions on which the commercial supremacy of Chicago stands, The Journal is Chicago's *first newspaper*.

Competitors have come and gone in the period of The Journal's 79 years of service to the ideals that personify the "I Will" spirit. Its policy---reliable, wide-awake, progressive, dependable and forceful---has been a winner for over three quarters of a century.

The Journal's financial and commercial departments are the best in the country. Its circulation is gilt edged among readers who are the brain and brawn and sinew of the great metropolis.

Autos. Furniture ~ *Almost Anything!*

**S**INCE buying or selling is a reciprocal process, it is necessary to find a second party to every transaction. Whether or not you are successful in selling your Real Estate, your Car or your Furniture, depends on the methods you employ to find the second party—the buyer . . . the greater the number of people who read your offer, the greater are your chances of completing the sale. Remember, The Tribune has the largest circulation in the Middle West and prints more Want Advertising than all the other Chicago newspapers combined! You can tell *all Chicago* of your offer through Want Ads in The Chicago Tribune.

## To Reach the Polish People of Chicago and Vicinity

—whether they be born here or abroad—it is quite essential to use one or more of the Polish daily papers in Chicago. There are five in all. The oldest among them is

### The Polish Daily News

DZIENNIK CHICAGOSKI

It is published continuously every evening since December 15th, 1890. It is aggressive, progressive, influential and reliable. It has the full confidence of its readers. That is why the advertisers, whether large or small, get such good results.

THE POLISH DAILY NEWS carries more display advertising and more "Want" advertising than any two of its contemporaries.

If the local advertiser, knowing the conditions here, uses this paper, whenever he wishes to reach the Polish people of Chicago and vicinity, then the national advertiser can make no mistake in placing his advertising in the same medium.

THE POLISH DAILY NEWS is read not only by the Polish immigrants but by their descendants born here, because it supplies them with news and articles that are of special interest to them as Americans of Polish extraction.

## STANDARDIZED PAPER

FOR EVERY PURPOSE

Experienced paper buyers use standardized paper in their printing because by doing so they practice economy and effect improvements.

Holding paper true to standard is only possible where it is produced under the most favorable conditions and subjected to the close scrutiny of an organization large enough to warrant having a very complete technical laboratory and experts responsible for the quality of each grade.

An expert on paper will serve you at any time you wish—and without obligation.

## CHARLIE POSTL—*The Champion* Builder of Physical Energy, Endurance and Enthusiasm

FOR CHICAGO'S BUSINESS AND PROFESSIONAL MEN WHO ARE DOING BIG THINGS

**Gentlemen, Your Health**  
*your success, depends upon three vital qualities*  
**WHICH YOU MUST POSSESS**

1—Physical Energy; 2—Endurance; 3—Enthusiasm.

There is but one way for you to have and to keep these invaluable human assets.

**Through the Proper Care of Your Body and Organs.**

Doing that, is easy — and it is fun — if you have the proper guidance and the right environment.

That is why the leading business and professional men (including physicians) place themselves in the hands of Charlie Postl to be kept physically fit.

Charlie Postl has attained the championship in building men in the same way he attained championship as a wrestler — by the right methods and close attention to them. Postl has built up the largest man-building institution of its kind in the world.

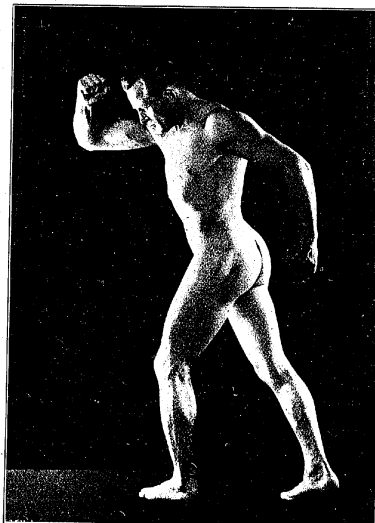

Thousands of Chicago's successful men are walking and talking testimonials for the Postl system of building Health, Energy and Endurance.

What about you? ARE YOU BUILDING UP — OR WEARING DOWN?  
Give it serious thought. Write on your business stationery for a complimentary copy of our new book filled with health ideas and suggestions.

# KEEP FIT!

CHICAGO'S business men build and hold their health at this institution where physical training is given in the right way, and in the right amount. TRY THE WALLACE method a month and you will experience a pick-up in your entire physical energies that did not seem possible at the outset. It is not a "grind" but a form of recreation you will soon look forward to each day—and it pays big dividends for the small amount of time invested.

**COLOR** Process Printing and Engraving as produced in this plant have that subtle element of distinction called *Character*. Thought, care and intelligent co-operation are reflected in the quality of the finished product. You can now use color printing and not assume the penalty of costly color plates and printing. Color adds much to the attractiveness of your printing job and in illustrating merchandise it will add interest and increase your sales. Put all the life and action possible into your printing by the judicious use of color. We should be pleased to discuss your printing problems and assist you in the direct by mail merchandising of your product.

## The Law and Practice of Business

This is a unique, direct, practical and self-explanatory method of acquiring a knowledge of both Law Fundamentals and Business Practice, combined in a loose-leaf system, so simplified that one may obtain an understanding of both subjects, without the disappointing experiences of adult study which many start but few finish.

The method employed embraces all the advantages of both a Business Course of Instruction and a Law Course in Business, without the tedious questionnaire, yet teaches by the easiest, quickest, surest and most attractive way—a common-sense, practical method.

Law and Business in active practice are inseparable. To consider them independently is to lose the practical value THE AMERICAN ACADEMY OF LETTERS, CHICAGO  
47th STREET AT FORRESTVILLE, PHONE DIXIE 7821

and interest which a combination assures. Business Law standing alone is an abstract science, requiring for its mastery, diligent study, which to the average person becomes dry and uninteresting. By introducing a live business transaction of practical value in itself and coupling the two, the subject takes a fascinating and practical turn, the net results representing an asset of the highest merchantable value.

This combination discloses the pitfalls, errors and hazards in business practice, and indicates how in similar situations to avoid or circumvent them. The combination reveals the principles of law and business procedure which make for business security and which is the high purpose of achievement.
