

STREET AND AVENUE GUIDE.

EXPLANATORY.

The City comprises Eleven Divisions, known as the North, South and West Divisions, Hyde Park, Lake, Calumet, Lake View, Jefferson, Norwood Park, Austin, and Rogers Park.

4000 at Fortieth Avenue, 4800 at Forty-eighth Avenue, and intermediate numbers accordingly. On north and south streets north of the base line 800 is at Chicago Avenue, 1600 at North Avenue, 2400 at Fullerton Avenue, 3200 at Belmont Avenue, 4000 at Irving Park Boulevard, 5000 at Bryn Mawr Avenue, 6400 at Devon Avenue, and 7200 at Touhy Avenue.

Eight hundred (800) numbers are assigned to each mile, or one hundred (100) numbers to each one-eighth of a mile. Commencing with No. 1 at the north line of Madison Street, the numbers run north at this rate to Lake Michigan or the northern city limits, and similarly, south of Madison Street on streets running north and south, the numbers commence with No. 1 at the south line of Madison and run to the southern city limits.

The ordinance exempts from the new system the territory bounded on the north by the Chicago River, on the west by the South branch of the Chicago River, on the south by Twelfth Street, and on the east by Lake Michigan, known as Chicago's business district. Under the new law the even numbers on north and south streets running in a northerly or southerly direction are on the West side of the street. The even numbers on east and west streets, or streets running in an easterly or westerly direction, are on the north side of the street.

By this plan it is possible to easily tell the exact location of a number on any given street. On all east and west streets west of the base line 800 is at Halsted Street, 1600 at Ashland Avenue, 2400 at Western Avenue, 3200 at Kedzie Avenue,

On any street, the relative location of a house is found by running down the column of figures, which are its numbers at the several crossings of the streets that intersect it. The right hand number after crossing is usually even. For example, to find 44 State, it will be seen that 20 is on the corner of Lake, and 66 is on the corner of Randolph; hence 44 is between these two streets. Where no numbers are given the corners, and often the blocks, are vacant.

ABBREVIATIONS.

Table of abbreviations for street names and directions, including A (North), S (South), W (West), E (East), and various street names like Madison, State, etc.
